Notice

ATTENTION SEWER USERS OF INFILTRATION & INFLOW (I&I)

Infiltration and inflow are any storm water, surface water, groundwater, roof runoff or subsurface drainage that enters a sanitary sewer system through direct and indirect means such as Residential, Commercial, and Industrial lateral connections, sump pumps, roof gutters, foundation perimeter drains, etc. These flows may cause sewer backups and overflows and are illegal.

Regulation of Sewer Use, Article IV, Use of Public Sewers, Sec. 1 states: "No person shall discharge or cause to be discharged any storm water, surface water, groundwater, roof runoff, subsurface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer. Existing connections of this type shall be removed as required by the Sewer Commission." A \$20.00 per day fee will be charged for these illegal connections.

If you plan on expansion of a Residence, Commercial, or Industrial Property you should inquire with the Spencer Sewer Department regarding any potential I & I impact fees that may be assessed by the additional flows that may be added to the existing sewer collections system. **These fees are based on Mass DEP 310 CMR 15.203.** You may be asked to attend a Board of Sewer Commissioners meeting with any plans, drawings, and or documents pertaining to the possible increase in flows.

If you fail to do so you may be fined and or a suspension of water services until corrective action has been taken.
